# SHORTHORN HISTORY

The Shorthorn Breed of cattle originated on the northeastern coast of England in the counties of North Cumberland, Durham, York and Lincoln. The first real development of the breed occurred in the valley of the Tees River about 1600. The large-framed cattle that inhabited this fertile valley became known as the Teeswater cattle.

The breed later spread to Scotland and then to America in 1783. When first brought to Virginia, the breed had attained the name Durham. It was the first improved breed to be imported here and the qualities the animals possessed put them in great demand, rapidly spreading their influence across America.

Shorthorns were popular with America's early settlers. They valued this breed for meat and milk and found Shorthorns a willing power for the wagon and plow as well. The breed followed, sometimes pulling pioneer wagons across the Great Plains and into the far west.

In 1834, Felix Renick of Chillicothe made the first major importation of Shorthorns to Ohio. On October 29, 1836, he held the first Shorthorn auction in Ohio. The cattle sold for huge amounts ranging from \$400 to \$2,225. A monument was erected to mark this historical milestone.

The Shorthorn breed is one of the oldest American breed organizations in existence today. Shorthorns and Polled Shorthorns are registered in the same Herd Book. Over 45 other breeds of cattle show traces of Shorthorn / Polled Shorthorn in their parentage, including Belgian Blues, Santa Gertrudis, Angus, Red Angus, Charolais, Gelbvieh, Beefmaster, Maine-Anjou and Milking Shorthorns.

The breed has been a part of many "firsts". The first registry for any breed of beef cattle was Coates Herd Book in 1822. The American Shorthorn Herd Book was the first of any breed to be published in the U.S. and was started in 1846. The first breed organization in America was the American Shorthorn Association which was founded in 1872. The first major breed to be developed in the U.S. was Polled Shorthorns, originating in Minnesota in 1881.

Shorthorns are the world's most numerous beef breed, but their numbers in North America do not reflect their world popularity. They are considered to be the most docile, easily-handled beef animals in the world.

Shorthorns have long been known for their maternal traits, milking ability and calving ease. Now the breed is excelling in growth and carcass traits, possessing the ability to produce a choice carcass while maintaining leanness.

# LIFETIME ACHIEVEMENT AWARD WINNERS

*The Ohio Shorthorn Breeders Lifetime Achievement Award recognizes Ohio Shorthorn members who have shown exceptional leadership for Shorthorn activities in the state of Ohio. These honorees are persons that have shown exceptional passion and can be given credit to helping with the long-term success of the Shorthorn breed in the state of Ohio. They have attended functions, and have shown their passion and love for the breed and the people within the breed. A Lifetime Achievement Award winner is a true Shorthorn enthusiast who has positively impacted the Shorthorn breed and the members of the Ohio Shorthorn Breeders Association.*

## 2023 WINNER: MICHAEL AND KAREN BIHL

Michael Bihl was born into a Shorthorn family. He grew up raising and exhibiting Shorthorns at the local and state levels. In 1966, Michael won Champion Steer at the Adams County Fair with a shorthorn calf that was born and raised on the family farm in West Union, Ohio.

In 1977 Michael had the good fortune to marry Karen Scott, a daughter of an Angus breeder. Through her love of Michael, Karen quickly saw the error of her ways, and she too became a shorthorn enthusiast. The couple raised two daughters who continued the family tradition of raising and exhibiting Shorthorn cattle. At one point, the Bihl family had a herd of 80 Shorthorns.

For countless years, Michael and Karen have supported the Shorthorn industry in Ohio. Michael has served on the Ohio Shorthorn Breeders' Association Board of Directors where he held the offices of president, vice president, and treasurer. Additionally, he served as the chairman of the scholarship committee for 14 years. For more than 20 years, Karen has served as a lassie officer in the Ohio Shorthorn Lassies Association. In this capacity she coordinates the Ohio Shorthorn hospitality events at both the Ohio Beef Expo and the Ohio State Fair. Karen is also known as the "Keeper of the Kilts" for her efforts as Queen Chairman.

Both Michael and Karen continue to support the Shorthorn industry with passion, enthusiasm, and class throughout Ohio. Ohio Shorthorn Breeders proudly honor the couple with the 2023 Lifetime Achievement Award.
